

# EPBF GREASE

## NLGI 2

### Product Description:

**EPBF GREASE NLGI 2** is a multipurpose lithium thickened EP-2 grease suited for automotive, agriculture and industrial applications.

**EPBF GREASE NLGI 2** is suitable for use in a wide range of plain and rolling bearings.

**EPBF GREASE NLGI 2** is based on high quality mineral base oil in combination with an unique additive package to ensure the following properties:

- All types of bearings subjected to high loads, vibrations or in a humid environment.
- In journal bearings, including yellow alloys, subjected to heavy loads or partial rotation with abrasive wear.
- To protect the development of rough or accelerated wear and tear of bearings and grooves in Cardan type transmissions and grooved joints with high torques.
- Lubrication in rolling mills.

**Temp Range:** Continuous operation: -20°C to + 120°C. Short periods maximum +135°C

**EPBF GREASE NLGI 2** exceeds the following performance criteria:

**KP2K-20**

**L-XCEB-2**

Property	Unit	Test Method	Typical Value
NLGI Grade		ASTM D217	2
Thickener type			Lithium
Color		Visual	Amber
Penetration loss after 105	mm	ASTM D-217	10
Dropping Point	°C	IP 396	>185
Base Oil Viscosity @40°C	mm <sup>2</sup> /s	ISO 12058	100/150
4-Ball Weld Load	kg	ASTM D2596	>250
Water resistance, 3h, 90 °C		DIN 51807	1

**Product Nr:** 44000

**Date Superseded:** 25-09-2020

**Date Issued:** 8-10-2025

**Revision nr:** 4
