

MOTOR CLEANER

Product Description:

MOTOR CLEANER

It is a powerful oil soluble cleaner. Cleans and removes lubricant residue and other deposits of dirt from the internal parts of the engine. Recommended for all gasoline or diesel engines with or without turbo. Also suitable for hydraulic systems and gearboxes.

ADVANTAGES

- Removes residual deposits from used oil throughout the lubrication system.
- It guarantees a perfect circulation of the lubricant.
- Clean the crankcase, the valves, the housing of the segments and conduits, hydraulic tap-pets, etc ...
- Catalyst tested, suitable for any engine.
- Recommended for all types of mineral oil, synthetic, mono and multigrade.

HOW TO USE

Add the contents of the canister into the oil pan at operating temperature before changing with the hot engine. Let the engine run for approximately 10 minutes. Then replace the oil and filter. The content (230ml) is enough for 2.5-4.5 liters of oil.

PRESENTATION

- 230 ml
